

Abstract Topics

Late Breaking Abstract Submission Is Now Closed.

Thank you for your submissions. Notifications will be sent in due course, after the scientific committee has completed a blind review.

Late Breaking Submission Deadline – Monday, 13 March 2023: Midnight CET (23:59)

Late breaking scientific abstracts should contain new, scientifically rigorous information that has not been presented previously. Only work that was not available at the time of regular submission should be submitted during the late breaking submission for consideration.

Results of a clinical trial should likely have a significant impact on clinical practice and/or to make significant advances in the PGHAN scientific field. We will accept trials that are to be completed after the submission deadline 13 March 2023, but in time to present the final results, in Vienna, at ESPGHAN 2023.

- **Coeliac disease**
- **Cystic fibrosis and pancreatic disorders**
- **Endoscopy**

Enteropathy (other than Coeliac disease)

- **Eosinophilic Esophagitis**
- **Gastroenterology other**
- **GI-infections**
- **GI motility, GERD and functional GI disorders**
- **Inflammatory bowel disease**
- **Peptic disease and helicobacter pylori**
- **General Hepatology**
- **Transplantation**
- **Breast milk and infant feeding**
- **Clinical nutrition**
- **Malnutrition and feeding disorders**
- **Neonatal and preterm nutrition**
- **Nutrition other**
- **Obesity, growth and metabolism**
- **Parenteral nutrition**
- **The gut microbiome**
- **Basic and/or Translational Science**
-

- **COVID 19**

- **Education/training**
