

Learning Zones – ELZ & MLZ

Endoscopy Learning Zone (ELZ)

The 55th Annual Meeting of ESPGHAN is delighted to host the Endoscopy Learning Zone (ELZ).

The Endoscopy Learning Zone allows for hands-on training in various diagnostic and therapeutic endoscopy techniques:

The hands-on training is performed on biological models and mannequins to achieve optimum simulation and interaction. The training is supervised by some of the most experienced paediatric endoscopists in all of Europe and will be performed in small groups to improve your skills in diagnostic and therapeutic endoscopic procedures.

Participation at the ELZ is limited due to room capacity. Therefore, and due to its high popularity, we kindly ask that everybody registered will not miss their confirmed session time.**Registration for Endoscopy Learning Zone**

Please click [here](#) to register. Onsite registration for the ELZ, is subject of availability.

Please Note: Registration for the Endoscopy Learning Zone, is only possible in collaboration with an **onsite** registration.**Endoscopy Learning Zone 1 “Beginners”**

Thursday, 18 May 2023: 14:15-16:45

- Upper Endoscopy
- Colonoscopy
- Gastrostomy placement
- The Endoscopist's Toolbox
- Capsule Endoscopy
- Foreign Bodies Removal

Endoscopy Learning Zone 3 “Advanced”

Friday, 19 May: 15:15- 17:45

- Esophageal / Varices banding
- Polypectomies +/- clips
- Gastric Varices bleeding
- Esophageal balloon dilatation
- Foreign Bodies Removal
- Gastrostomy placement
- Colonoscopy
- Capsule Endoscopy
- Nasal Endoscopy

Endoscopy Learning Zone 2 “Beginners”

Friday, 19 May 2023: 10:45-13:15

- Upper Endoscopy
- Colonoscopy
- Gastrostomy placement
- The Endoscopist’s Toolbox
- Capsule Endoscopy
- Foreign Bodies Removal

Endoscopy Learning Zone 4 “Advanced”

Saturday, 20 May: 11:00-12:30

- Esophageal / Varices banding
- Polypectomies +/- clips
- Gastric Varices bleeding
- Esophageal balloon dilatation
- Foreign Bodies Removal
- Gastrostomy placement
- Colonoscopy
- Capsule Endoscopy
- Nasal Endoscopy

Motility Learning Zone (MLZ)

The 55th Annual Meeting of ESPGHAN is delighted to present the Motility Learning Zone (MLZ).

The Motility Learning Zone concentrates and facilitates hands on training in Oesophageal Manometry and 24-hour-pH impedance.

The hands-on training will be supervised by some of the most experienced paediatric Neurogastroenterologists in all of Europe. The training will include live demonstration of a motility test and supervised hand-on analysis of 24-hour pH-impedance monitoring aiming to achieve the optimum interaction.

Participation at the MLZ is limited due to room capacity. Therefore, and due to its high popularity, we kindly ask that everybody registered will not miss their confirmed session time.
